Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim(s) 1-4, 6, 7, 9 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Drake (4,907,739) in view of Kemmerer (3,999,710). Drake discloses all of the limitations of the claim(s) except for the air to fluid heat exchanger being in a hot air duct. Kemmerer discloses the presence of an air to fluid heat exchanger being in a hot air duct. See fig. 1 of Drake and 21 of Kemmerer. Hence, one skilled in the art would find it obvious to modify the system of Drake to include the air to fluid heat exchanger being in a hot air duct of Kemmerer for the purpose of increased applicability. Regarding claim 2, see 18. Regarding claim 3, see col. 4 line 3. Regarding claim 9, see 14.

Allowable Subject Matter

Claims 5, 8, 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The provided references are representative of the state of the art that is applicable to the applicant's invention. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Derek S. Boles at (571) 272-4872 or supervisory patent examiner Kenneth Rinehart at (571) 272-4881.
